## **ASME Pressure Vessel - Ammonia Tank manufactured by BEPeterson**

BEPeterson manufactures an ASME Pressure Vessel – Ammonia Tank for use in a refinery process line. The vessel dimensions are 7' 6" ID x 9' 10" OAL. The material of construction was SA-516 GR 70.

The vessel was designed to 30 psi @ -20° F / 150° F. BEPeterson offers design and fabrication of custom ASME pressure vessels and tank. All products are designed and fabricated in accordance with ASME Code ASME Section VIII Division I. BEPeterson is an ISO 9001 certified manufacturer celebrating our 80<sup>th</sup> year in business. Our experienced in-house engineering staff can design and fabricate virtually any type of carbon steel and/or stainless steel vessel or tank to meet your specific size requirements.

## About BEPeterson

Since 1935 BEPeterson has set the standard for custom metal fabrication of heavy-gauge metal parts and equipment. BEP has been relied on by our customers to provide complete engineering, design and project management of the most critical components. We are ISO 9001:2015 certified and ASME certified. Our 88,000 square foot facility with high ceiling bays is one of the largest in the Northeast.

BEPeterson is both a high volume contract manufacturer and a custom metal fabricator. BEP utilizes advanced manufacturing techniques and low cost material procurement to supply consistent and repeatable high quality products to our customers.

BEP manufactures Pressure Vessels, Tanks, ASME pressure vessels & tanks, ASME code and non-code vacuum chambers and vacuum furnaces, filter vessels, filter housings, skid assemblies, Co-gen ducting and a variety of industrial metal fabrications.

Buyers in the power and utilities, medical, chemical, environmental/filtration and industrial marketplaces choose to partner with BEPeterson because they value the fact that BEPeterson offers more than mere fabrication capabilities. BEPeterson can optimize our customer's requirements for cost, delivery and quality.
