BEPeterson, Inc. Installs New CNC-VTL

BEPeterson is pleased to announce the installation of a new CNC-VTL. The machine has a 92" diameter table which can accept a part up to 102" in diameter. The height under the rail is 80". The machine is equipped with a 5-tool automatic changer. Dan Szczurko, VP Sales states, "This second large VTL adds to BEPeterson's machining capacity. BEPeterson is meeting the growing demands of our customers and providing metal fabrications and contract manufacturing to the highest level of quality". Customer requirements for Medical Components, ASME Pressure Vessels, Tanks, Vacuum Chambers and Vacuum Furnaces are being machined in the new VTL.

About BEPeterson

Since 1935 BEPeterson has set the standard for custom metal fabrication of heavy-gauge metal parts and equipment. BEP has been relied on by our customers to provide complete engineering, design and project management of the most critical components. We are ISO 9001:2015 certified and ASME certified. Our 90,000 square foot facility with high ceiling bays is one of the largest in the Northeast.

BEPeterson is both a high volume contract manufacturer and a custom metal fabricator. BEP utilizes advanced manufacturing techniques and low cost material procurement to supply consistent and repeatable high quality products to our customers.

BEP manufactures ASME code and non-code vacuum chambers, ASME pressure vessels & tanks, ASME vacuum furnaces, filter vessels & housings, skid assemblies, ducting and a variety of industrial general fabrications.

Buyers in the power and utilities, medical, chemical, environmental/filtration and industrial marketplaces choose to partner with BEPeterson because they value the fact that BEPeterson offers more than mere fabrication capabilities. BEPeterson can optimize our customer's requirements for cost, delivery and quality.
