Low NOx Coal Burners manufactured by BEPeterson

BEPeterson manufactures multiple Low NOx Coal Burners for installation in Argentina South America. These are wall fired burners manufactured to specific customer design. They include the use of carbon steels and high temperature stainless steel materials. Burners can be either for new construction or retrofit into existing boiler requirements.

BEP has a rich history in fabricating products for the power and utilities industry. From coal Low NOx burners and boiler assemblies to large duct work, scrubbers and a myriad of other parts and components, BEP-fabricated products are integral to utilities and power plants in all corners of the globe. Products include: Ash Control Valves, Boiler components, Low NOx Burners, Burner Tips, Ceramic / Refractory Lined Products, Coal Compartment Assemblies, Overfire Air Systems, BEPeterson provides custom Hardfacing where abrasion-resistance is critical, Cyclones, Dampers, Duct Work, Low NOx Wind Boxes, Sofa Registers, Vortex Finders

BEPeterson

About BEPeterson

Since 1935 BEPeterson has set the standard for custom metal fabrication of heavy-gauge metal parts and equipment. BEP has been relied on by our customers to provide complete engineering, design and project management of the most critical components. We are ISO 9001:2015 certified and ASME certified. Our 88,000 square foot facility with high ceiling bays is one of the largest in the Northeast.

BEPeterson is both a high volume contract manufacturer and a custom metal fabricator. BEP utilizes advanced manufacturing techniques and low cost material procurement to supply consistent and repeatable high quality products to our customers.

BEP manufactures Pressure Vessels, Tanks, ASME pressure vessels & tanks, ASME code and non-code vacuum chambers and vacuum furnaces, filter vessels, filter housings, skid assemblies, Co-gen ducting and a variety of industrial metal fabrications.

Buyers in the power and utilities, medical, chemical, environmental/filtration and industrial marketplaces choose to partner with BEPeterson because they value the fact that BEPeterson offers more than mere fabrication capabilities. BEPeterson can optimize our customer's requirements for cost, delivery and quality.
