## **PED Pressure Vessels Manufactured by BEPeterson**

BEPeterson is pleased to announce the shipment of multiple PED Pressure Vessels with CE certification issued by Bureau Veritas UK Ltd. The Pressure Equipment Directive (PED) of the EU establishes the standards for the design and fabrication of pressure equipment. The PED pressure vessels manufactured by BEPeterson are used as Helium Separators as part of a compressor assembly. Carbon steel shells with weld caps on each end and couplings welded to the shell and weld caps. The Vessels were pressure rated from 2000 psi up to 8400 PSI. BEPeterson is ISO 9001:2015 certified. All PED vessels are supplied with full documentation including material test reports (MTR's), Hydrotest reports, RT (x-ray) test results, and full dimensional reports.

The PED pressure vessels were fabricated and ASME stamped by the National Board. BEPeterson is a PED pressure vessel manufacturer and has supplied a variety of PED pressure vessels for the European

market.

## **About BEPeterson**

Since 1935 BEPeterson has set the standard for custom metal fabrication of heavy-gauge metal parts and equipment. BEP has been relied on by our customers to provide complete engineering, design and project management of the most critical components. We are ISO 9001:2015 certified and ASME certified. Our 88,000 square foot facility with high ceiling bays is one of the largest in the Northeast.

BEPeterson is both a high volume contract manufacturer and a custom metal fabricator. BEP utilizes advanced manufacturing techniques and low cost material procurement to supply consistent and repeatable high quality products to our customers.

BEP manufactures Pressure Vessels, Tanks, ASME pressure vessels & tanks, ASME code and non-code vacuum chambers and vacuum furnaces, filter vessels, filter housings, skid assemblies, Co-gen ducting and a variety of industrial metal fabrications.

Buyers in the power and utilities, medical, chemical, environmental/filtration and industrial marketplaces choose to partner with BEPeterson because they value the fact that BEPeterson offers more than mere fabrication capabilities. BEPeterson can optimize our customer's requirements for cost, delivery and quality.
