ASME Pressure Vessel Skid Assembly Shipped to ASCO – Emerson Electric

BEPeterson is pleased to announce the shipment of an ASME Pressure Vessel Skid Assembly to ASCO a division of Emerson Electric in New Jersey.

The project consists of (2) ASME Pressure Vessels - 25" OD x 84" OAL 304 SS designed to 350 PSI @ 220 °F. The pressure vessels are mounted on skid frames and fitted with all welded 304 SS piping and customer supplied valves into a fully integrated pressure vessel skid frame assembly.

The pressure vessel skid assembly will be used in ASCO's facility as a water life test for valves supplied by ASCO. ASCO is the worldwide leader in the design and manufacture of quality solenoid valves.

ASCO products are designed to control the flow of air, gas, water, oil and steam.

About BEPeterson

Since 1935 BEPeterson has set the standard for custom metal fabrication of heavy-gauge metal parts and equipment. BEP has been relied on by our customers to provide complete engineering, design and project management of the most critical components. We are ISO 9001:2015 certified and ASME certified. Our 88,000 square foot facility with high ceiling bays is one of the largest in the Northeast.

BEPeterson is both a high volume contract manufacturer and a custom metal fabricator. BEP utilizes advanced manufacturing techniques and low cost material procurement to supply consistent and repeatable high quality products to our customers.

BEP manufactures Pressure Vessels, Tanks, ASME pressure vessels & tanks, ASME code and non-code vacuum chambers and vacuum furnaces, filter vessels, filter housings, skid assemblies, Co-gen ducting and a variety of industrial metal fabrications.

Buyers in the power and utilities, medical, chemical, environmental/filtration and industrial marketplaces choose to partner with BEPeterson because they value the fact that BEPeterson offers more than mere fabrication capabilities. BEPeterson can optimize our customer's requirements for cost, delivery and quality.
